

# Folding Table Options: Flip, Fold, Turn & Convertable

## Turn

**Frame finish:** Black powder-coated black steel frame legs and beam with die cast polished aluminium footers, lockable castors.

**Folding mechanism:** Small bar at edge of desk, squeeze/pull towards user to unlock. The desk will automatically lock into place when down, pull metal bar to release and fold back up.

## Folding Table Options

### Fold

**Frame finish:** Steel tube frame in a silver finish

**Folding mechanism:** When the desktop is folded down the small metal bar (illustrated on the right hand side, upright picture) is positioned by the user across the width of the desk. To prevent movement small adjustable stabiliser plates at each end of the bar are screwed up by hand to lock the desktop into place. To Fold up un-screw the stabiliser plates, swing bar parallel to the frame and fold table up.

### Desktop sizes

Width: 800mm

Length: 1500mm or 1800mm

Desk Thickness: 24mm

Desk Height: 730mm

# Folding Table Options

## Flip

**Frame finish:** Steel tube frame in a silver finish

**Folding mechanism:** The Flip is a one person version of the Fold table, and like the Fold, when the desktop is folded down a small metal bar is positioned by the user across the width of the desk.

The Flip is easily 'nested' for minimal storage space when not in use, as illustrated.

### Desktop sizes

Width: 500mm

Length: 780mm

Desk Thickness: 24mm

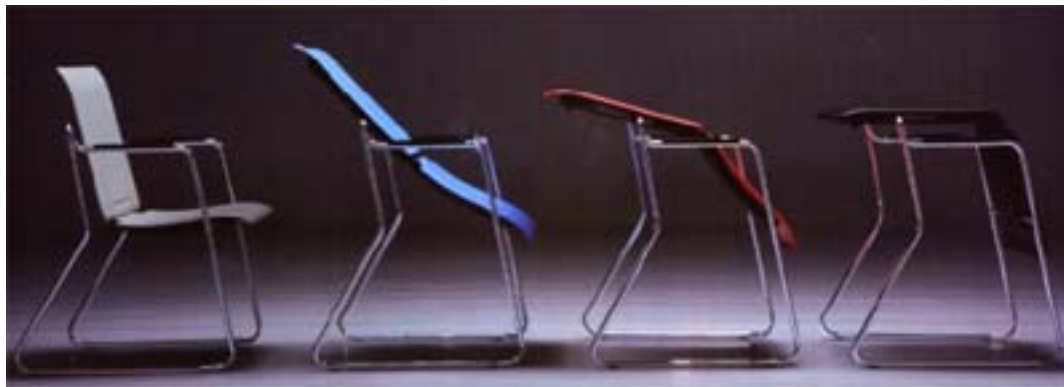

Desk Height: 730mm

## Folding Table Options

### ConverTable

**Frame finish:** Steel tube frame in a silver sled base finish, polypropylene shell.

**Folding mechanism:** The chair that converts to a table! The new ConverTable is a chair and table all in one and can be converted to either at the touch of a button. This unmatched versatility allows classroom, lecture theatres or conference halls to be easily adapted to a variety of uses.

### Desktop sizes

Width: 530mm

Length: 470mm

Desk Thickness: 10mm

Desk Height: 740mm

Optional stackable trolley
